

eInvoicing

Our eInvoicing service

Our eInvoicing service enables you to meet the legal eInvoicing requirements and secure a seamless end-to-end invoice processing.

- Adaption of our solution individually to your needs and existing systems
- Legal examination of all technical implementations is carried out with the advice of tax experts
- Ensuring the highest standards of quality and security during data transmission
- Dedicated and qualified support, competent customer service with 1st level support in the respective national language
- Broad and continually growing range of service

Our Markant guarantee:

We provide highest service and quality standards for continued seamless end-to-end electronic invoice processing.

Overall foundation for a seamless billing process...

- A secured seamless processing
- Core criteria to be prepared for new adjustments and regulations while minimizing additional processing costs

... is needed to prevent negative impacts on business relationships and performance

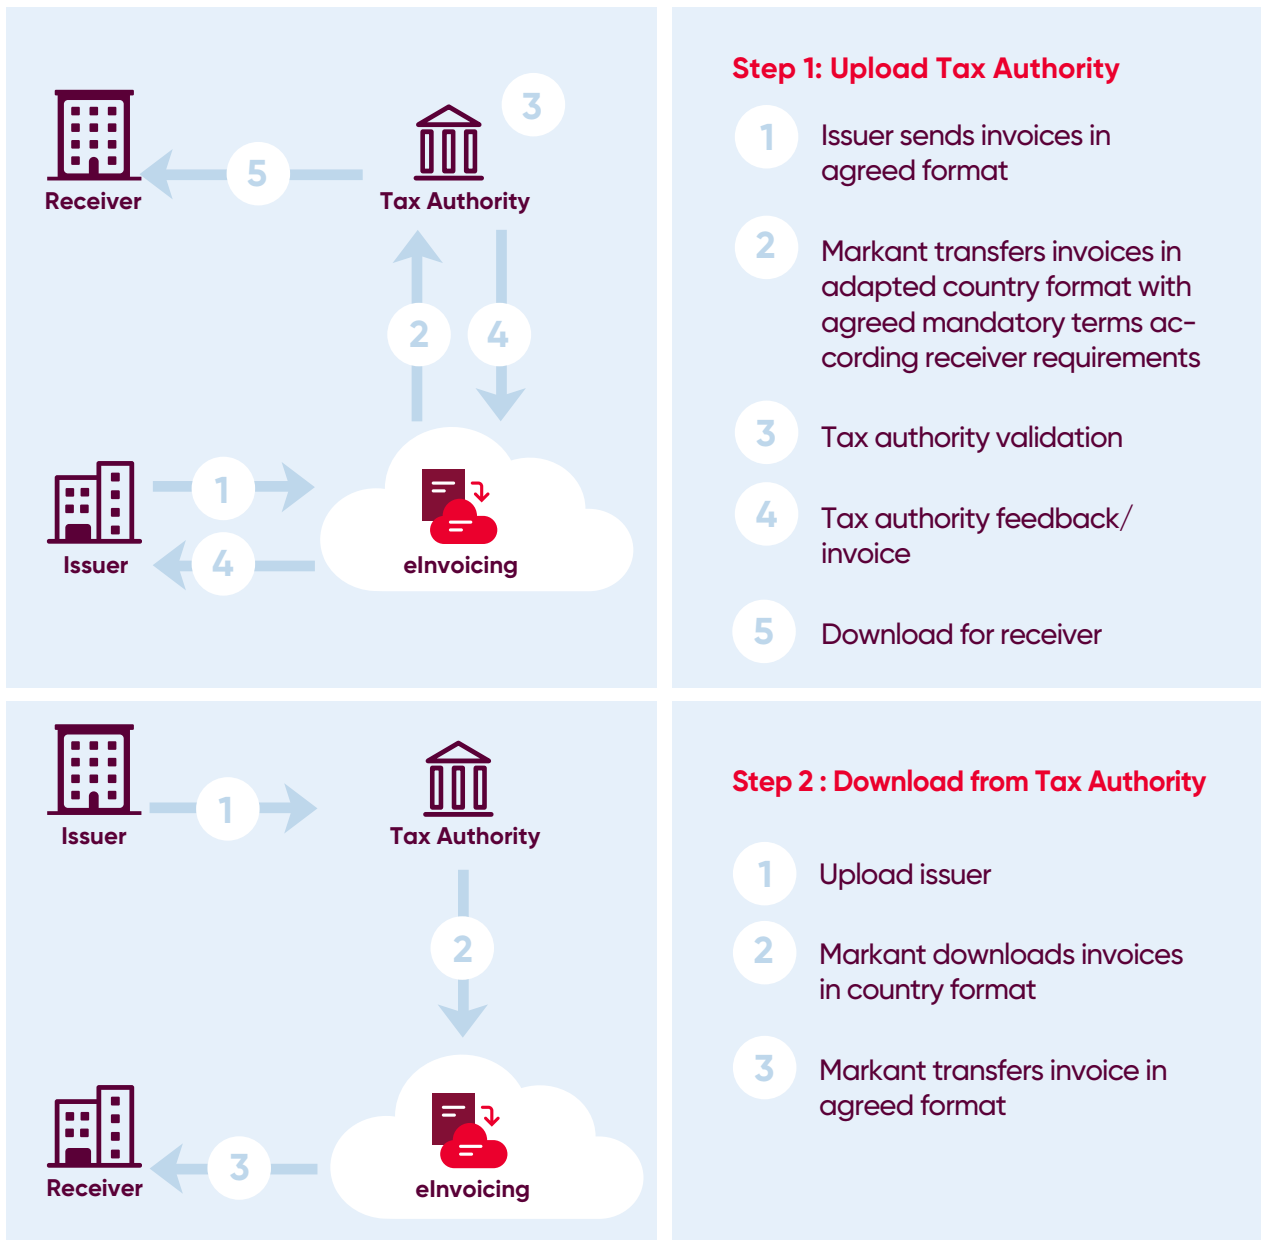

Need for adjustments and re-submission results in high and unnecessary processing efforts

- Waste of time and resources
- Misspent administrative costs and deferred cash inflows
- Diminishing customer satisfaction and risk of total loss of clients

Markant offers exactly this knowledge of retailer requirements through its many years of expertise as one of the largest EDI and central settlement providers in Europe and its close relationship with key retailers within FMCG and DIY.
